

ANGLOGOLD ASHANTI LTD

OBUASI MINE

POLICY STATEMENT ON SAFETY, HEALTH & ENVIRONMENT

It is the Policy of the Company to conduct its activities in such a way as to take foremost account of the safety and health of its employees and accept its responsibility towards customers, shareholders, suppliers, environment and the community in which it functions.

To carry out this policy, the company will;

- Conduct its operations with due regard to the laws, regulations and standards of Ghana and where adequate laws do not exist, adopt and apply international standards that reflect the Company's commitment to safety, health and environmental protection.
- Educate, train and motivate employees continually to conduct their activities with high standards of health, safety and environmental awareness and discipline.
- Carryout its activities in such a way as to avoid harm to the health of its employees and others and to promote as appropriate the health of its employees.
- Manage risk by implementing systems to identify, assess, monitor and control standards by reviewing performance and thus be committed to continual improvement.
- Involve Contractors working on the Mine in the improvement of health, safety and environmental performance and to understand their obligations in respect of this policy.
- Recognise the concerns of persons and communities affected by the company's activities, provide them with relevant information and discuss with them related company policies and practices.
- Protect the environment in which its activities are conducted and restore this environment to the extent practicable when disturbance cannot be avoided.

The co-operation of all levels of employees, as a committed team, in carrying out this policy will ensure the safest and healthiest possible working conditions, thus minimising injury/damage/losses.
